

Clarity Improvement for Turbid Water

Consult the Nebraska Pond Management handbook (pages 58 to 61) and the Nebraska Pond Guide (PG08-08) for information on how to improve water clarity for turbid water. Both are available on-line at the Commission's webpage or by contacting the nearest district office or the Private Waters Specialist listed at the end of this publication and request the desired information be mailed.

Gypsum Sources

- | | |
|--|--|
| 1) Nebraska Landscape Solutions
Scott Goes
2120 Cornhusker Hwy
Lincoln, NE 68521
402-560-3650 or 402-798-0311
(bulk-greens grade - easier to dissolve for pond application) | 2) Local COOP
(bulk-agricultural grade) |
